

Exhibit 1 - Lobbying Activities

Federal Lobbying Expenditures

In Calendar Year (CY) 2022, AECOM had aggregate federal lobbying expenditures of \$1,010,000, which were reported to Congress through our quarterly Lobbying Disclosure Act reports.

These expenditures include payments and overhead for internal lobbying staff (based on a percentage of their time lobbying in any given quarter), payments to outside lobbyists and lobbying firms, and the portion of dues paid to trade associations and coalitions used for federal lobbying purposes.

In addition to AECOM's internal registered federal lobbyists, as of March 31, 2023, AECOM retained four external lobbying firms with anticipated payments to those firms totaling \$450,000 over the course of their annual contracts.

State	Firm
DC	American Defense International
DC	Elevate Government Affairs
DC	Fierce Government Relations
DC	SBL Strategies

State/Local Lobbying Expenditures

AECOM has retained advocates around the country, some of which are registered as lobbyists in certain states and localities. As of March 31, 2023, AECOM had twenty (23) firms registered on our behalf as state/local lobbyists. The anticipated payments to those firms over the course of their contracts are \$2,153,840.
